

YSK

LABORATORIES PVT. LTD.

Formulating a healthy future

An R&D focused Manufacturer of Directly Compressible Granules and Finished Formulations in a globally compliant, state-of-the-art manufacturing facility using Proprietary Technology

About Us

YSK Laboratories is an innovation-led pharmaceutical company committed to advancing drug delivery through science and technology. Backed by a strong R&D foundation, we specialize in creating next-generation OSD solutions that combine quality, efficiency, and global compliance.

Our core capabilities lie in our proprietary Directly Compressible (DC) Granules — developed to eliminate traditional multi-step processes and enable solvent-free, one-step tablet manufacturing, optimized for excellent compressibility, flow, and stability.

With a state-of-the-art, integrated manufacturing facility near Mumbai, YSK has now expanded into the production of finished dosage forms (tablets). Our expertise extends to a robust portfolio of Immediate Release (IR) and Sustained/Extended Release (SR/XR/ER) formulations, designed for therapeutic precision and manufacturing scalability.

From semi-finished to finished products, YSK Laboratories is shaping the future of smarter, sustainable, and globally compliant pharmaceutical manufacturing.

Our Global Footprint

- DC Granules capacity : 500 MT annually
- Tablets capacity : 500 million tablets annually
- Global Compliances
- R&D Expertise
- Proprietary Technology

Key points of Tablets

Advanced formulation capabilities

Built to meet global formulation needs

End to end support through CDMO partnership

Controlled dosing

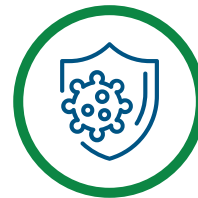

Customised development with documentation support

Bilayer tablet technology

DIABETES

ANTIBIOTIC THERAPIES

CARDIOVASCULAR

**PAIN
MANAGEMENT**

**CENTRAL NERVOUS
SYSTEM (CNS)**

GASTROINTESTINAL

**THERAPEUTIC
CATEGORIES**

Key points of DC Granules

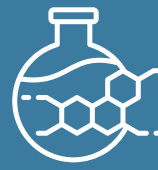

Manufactured using
proven proprietary
technology

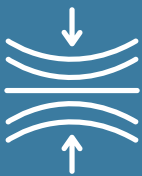

Excellent flowability,
uniformity, and
compressibility

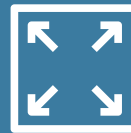

Solvent-free
(Green Tech)

Versatile
formulations SR / IR
& ER Available

Ready-to-compress
Single step

Freeing up existing
capacity

Green Technology

1. Solvent-free (OVI free)
manufacturing

2. Patient-safe formulations

3. Adherence to higher waste
management standards

4. Full EHS compliance &
Minimal excipient profile

Compliances & Accreditations

*EU GMP and US FDA certifications are expected in the coming year.

Head Office:

602, Lodha Supremus, Senapati Bapat Marg,
Opp. Kamala Mills, Lower Parel, Mumbai
400013

Manufacturing facility:

Plot No A-595, Mahape, MIDC,
Navi Mumbai 400710
